COLOR RANGE

We manufacture our products using a standard color palette to ensure consistency across items made from different materials and production technologies. This approach helps maintain a uniform appearance, which is essential for adhering to retailer brand standards.

Our palette includes the main standard colors, but we are always open to discussing additional color options to meet specific needs.

- Tr Clear
- Wh White / RAL 9016
- Gr Light grey / RAL 7035
- Ye Yellow / RAL 1018

Sliced cheese, meat, and fish packaged in flat vacuum-formed packs are among the most challenging products to merchandise effectively on shelves.

However, when displayed with our DIV120 dividers and BACK/BACKLINE back supports or spring pushers, these products become more visually appealing to shoppers, leading to a notable increase in sales and reduced staff involvement.

T-, L-BASE DIVIDERS

These dividers do not require any fixing profiles and are very simple to use – you just put them on the shelf and they start working.

DIVT-150

Injected freestanding T-divider

Injected freestanding T-divider.

Height: 150 mm
Lengths available: 380, 480, 580, 680 mm.
There is an option with magnetic tape for a more secure fixing on shelf.

FORTA SPRING PUSHERS

Spring pushers is an efficient tool to keep perfect product presentation on shelf. They are widely used with different product groups – both in food and non-food retail stores.

Tobacco products

Chocolate & Sweets

Fish, meat and cheese slices

Spices

Underwear

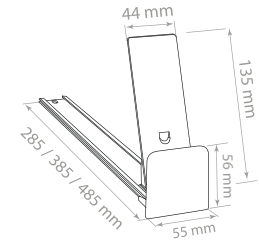

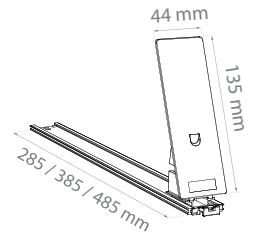

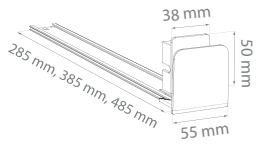

Hair colorants

MERCHANDISING OF SLICED CHEESE, FISH, MEAT

It is often a challenge to display this type of products on shelf – they are thin and flat and it is difficult to maintain front facing. The right combination of dividers and pushers solves this problem.

	FORTA GROSSA-2 Pusher with high inclined back support and straight front		31
	FORTA GROSSA-0 Pusher with high inclined back support		23
	FORTA GROSSA-4 Pusher with high inclined back support and inclined front		24
	FORTA NORMA-2 Pusher with medium back support and straight front		25

MERCHANDISING OF TOBACCO PRODUCTS

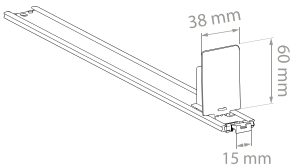

It has become very common to use spring pushers for merchandising tobacco products. We have a wide range of pusher solutions developed for this product category.

26 FORTA NORMA-0 Pusher without front

This classic pusher has a standard back support (38x50 mm) without any front. It can be supplied with springs of different force, but most often it is used with 3N or 4-8N springs. We recommend to use it in combination with 60 mm high dividers.

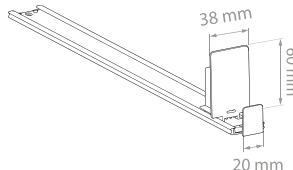

Color: Gr

27 FORTA NORMA-1 Pusher with a small front

This classic pusher has a standard back support (38x50 mm) and a small front. It can be supplied with springs of different force, but most often it is used with 3N or 4-8N springs. We recommend to use it in combination with 60 mm high dividers.

Color: Gr

28 FORTA NORMA-2 Pusher with a front riser

This pusher is specifically designed for merchandising smaller products, making it ideal for cigarette packs, medicines, and other small, lightweight boxes. For larger products, it is recommended to pair it with the Pusher Backplate (31310007) for added support. It is best used with dividers that are 30 mm or 60 mm in height.

Color: Gr

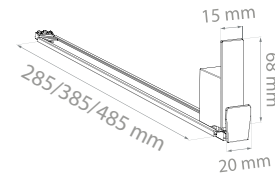

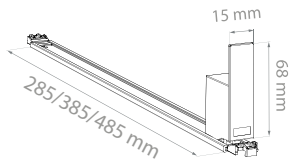

29 FORTA SLIMA-0 Slim high pusher with no front

This pusher is used to display narrow cigarette packs. The slim back support (15x68 mm) is good to push nearly any slim packs and products available on the market.

Recommended to use with 60 or 120 mm dividers. Supplied with 3 or 4-8N springs.

Color: Gr

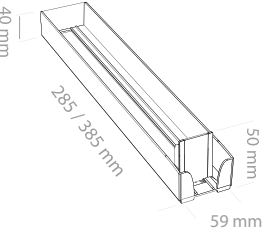

FORTA SLIMA-1 Slim high pusher with small front

This pusher is used to display narrow cigarette packs. The slim back support (15x68 mm) is good to push nearly any slim packs and products available on the market. The front helps to stop product near the shelf edge. Recommended to use with 60 or 120 mm dividers. Supplied with 3 or 4-8N springs.

Color: Gr

30

SIG-TRAY Injected tray for cigarette packs

Injected tray for cigarette packs with integrated pusher.

Width: 59 mm. Lengths: 285, 385 mm. 3N spring used by default, other pusher strength available by request.

Color: Tr

Packaging: 20 pcs.

31

If you're interested in tobacco product merchandising, ask for our "DISPLAYS FOR TOBACCO PRODUCTS" catalogue, which showcases our extensive range of displays and cabinets designed for tobacco merchandising.

MERCHANDISING OF CHOCOLATES

Having products near shelf front is crucial for this category, since impulse purchases is the key sales driving force for them. Pushers help to manage this task!

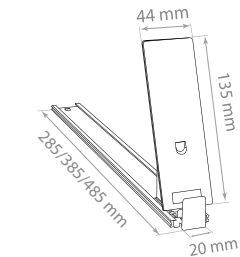

32

FORTA GROSSA-1 Pusher with high inclined back support and small front

This pusher has a tall inclined back support (44x135 mm) and small front (20x25 mm). It is recommended to use in combination with DIV60 or DIV120 dividers.

Recommended spring force: 7-11, 10-14N

Color: Gr

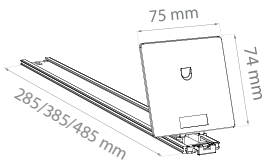

33

FORTA QUADRA-0 Pusher with big inclined back support

This pusher is perfect to merchandize lower chocolate bars. Its low and wide back support (75x74 mm) fits these products best.

Recommended to use with DIV60 dividers.
Recommended spring force: 7-11, 10-14, 14-18N

Color: Gr

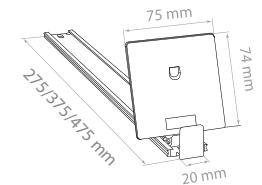

34

FORTA QUADRA-1 Pusher with big inclined back support and small front

This pusher is perfect to merchandize lower chocolate bars and wide sweet packs. Its low and wide back support (75x74 mm) fits these products best, the small front prevents the products from falling.

Recommended to use with DIV60 or DIV120 dividers.
Recommended spring force: 7-11, 10-14N

Color: Gr

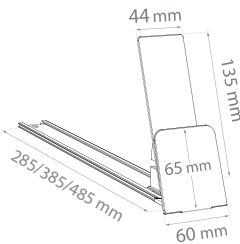

35

FORTA GROSSA-4 Pusher with high inclined back support and big inclined front

This pusher has a tall inclined back support (44x135 mm) and big inclined front (60x65 mm). It is recommended to use in combination with DIV120 dividers.

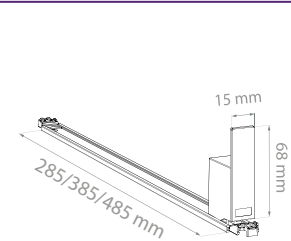

Recommended spring force: 7-11, 10-14N

Color: Gr

MERCHANDISING OF HEALTH & BEAUTY PRODUCTS

Product presentation plays crucial role in Health&Beauty products sales. It is very important to keep product front-faced and nice looking on shelf. You can achieve it when using the spring pushers.

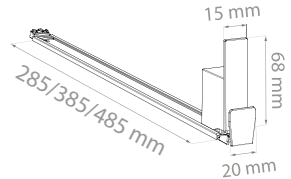

FORTA SLIMA-0 Slim pusher with high back support

This slim pusher is a great tool to front-face narrow products like mascara, nail varnish etc. Recommended to use with DIV60 or DIV120 dividers. Recommended pusher force: 3, 4-8N

Color: Gr

36

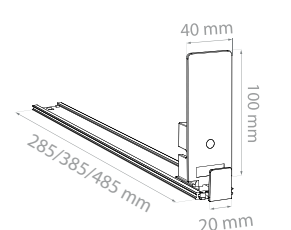

FORTA SLIMA-1 Slim pusher with high back support and small front

This slim pusher is a great tool to front-face narrow products like mascara, nail varnish etc.The small front keeps the products from falling. Recommended to use with DIV60 or DIV120 dividers. Recommended pusher force: 3, 4-8N.

Color: Gr

37

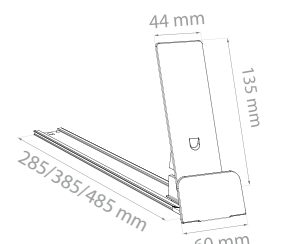

FORTA MAGNA-1 Pusher with big straight back support and small front

This straight back support (40x100 mm) with small front (20x25 mm) is a good tool to front-face shampoos, shower gels and other similar products. Recommended to use with DIV60 dividers. Recommended spring force: 4-8, 7-11,10-14N.

Color: Gr

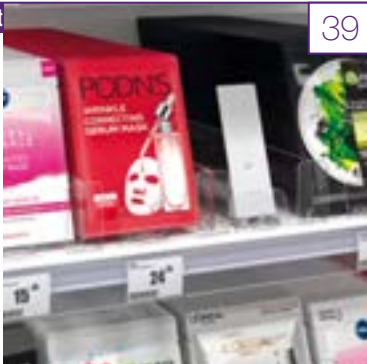

38

FORTA GROSSA-3 Pusher with big inclined back support and medium inclined front

This pusher has a tall inclined back support (44x135 mm) and low inclined front (60x35 mm). It is recommended to use in combination with DIV120 dividers. Recommended spring force: 10-14N.

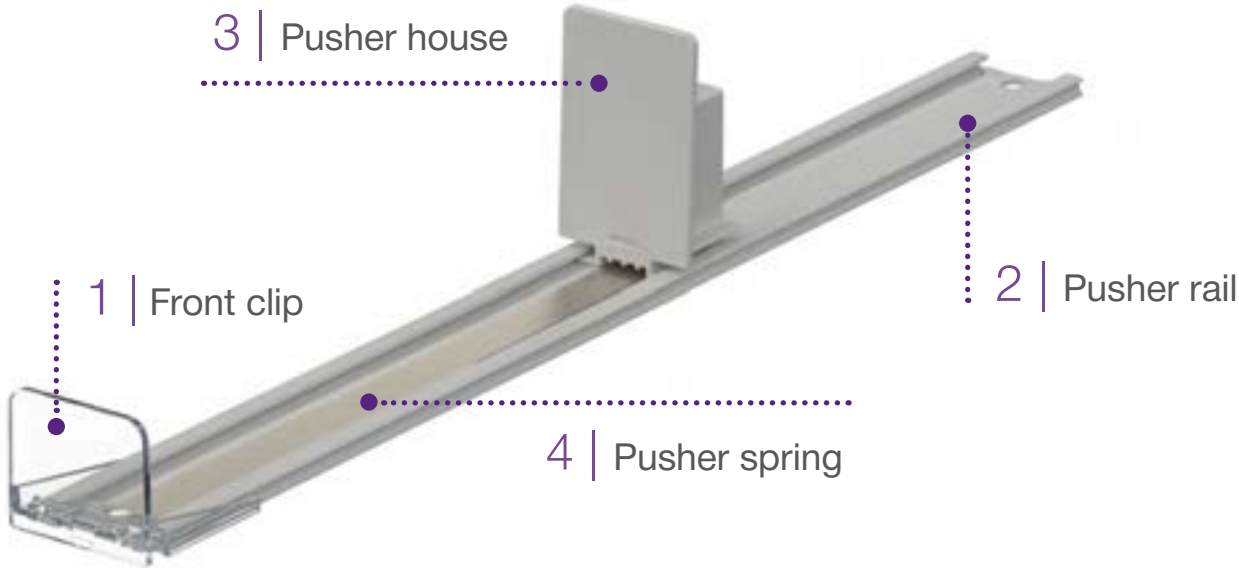

Color: Gr

39

PUSHER COMPONENTS

In addition to our extensive range of standard pushers, we also offer custom pusher solutions. To simplify your selection process, we present the main types of pusher components here, allowing you to assemble a product tailored to your specific needs.

1 | FRONT CLIP

The front clip secures the pusher to the front T-rail and can also function as a front riser to prevent products from falling. We offer a wide range of front clips designed for different products and applications, compatible with both narrow (19 mm) and standard (34 mm) profiles.

For 34 mm rail

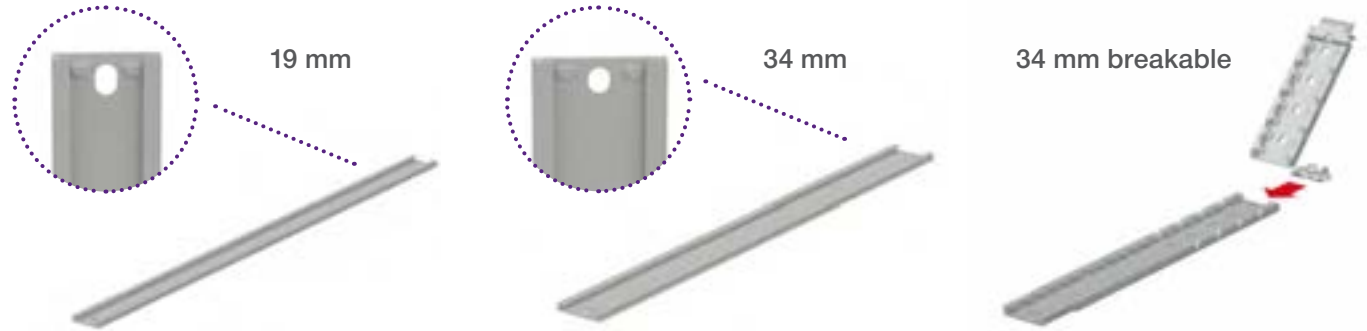

For 19 mm rail

2 | PUSHER RAIL

The pusher rail ensures smooth product movement and is available in both fixed-length and adjustable-length options to suit various applications.

3 | PUSHER HOUSE

Our selection of pusher houses allows you to create the perfect pusher for your specific application. You can add a standard or custom backplate to provide enhanced support for the displayed products.

For 34 mm rail

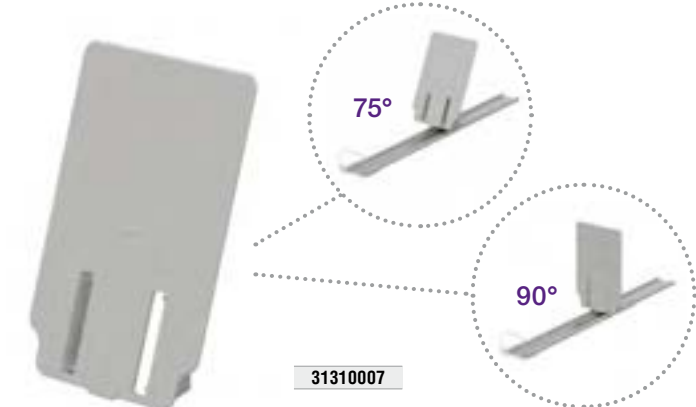

For 19 mm rail

PUSHER BACKPLATE

Our standard backplate can be mounted on the Norma pusher housing and fixed in two positions, offering both vertical and tilted orientations.

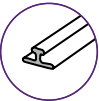

4 | PUSHER SPRING

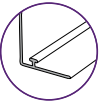

The required spring strength depends on the size and weight of the product. We offer a variety of springs ranging from 2 to 18 Newtons, with different fixing options to suit your needs.

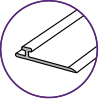

DIVIDER AND PUSHER FIXING PROFILES

We offer a variety of fixing profiles to mount lock dividers, pushers and back supports on different types of shelves.

- 

Narrow profile with adhesive tape is widely used for fixing low dividers – 30 and 60 mm high.
- 

The L-profiles are good to use when you need not just fix the pushers and dividers, but also to avoid the products from falling. It is especially important when using spring pushers.
- 

A wider fixing profile is needed to fix higher (120 and 200 mm) dividers.
- 

The rounded PRO30 profile has an integrated T-profile. So, you can combine products segmentation with merchandising.

40

T-RAIL10

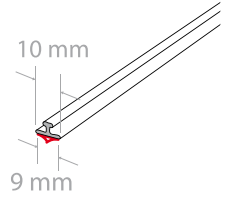

T-profile

T-profile with adhesive tape (9 mm) for fixing the dividers on shelf.

Width: 10 mm.
Length: 1000 mm, 1250 mm, 1330 mm.

L-RAIL80-TF / TM

L-Front riser

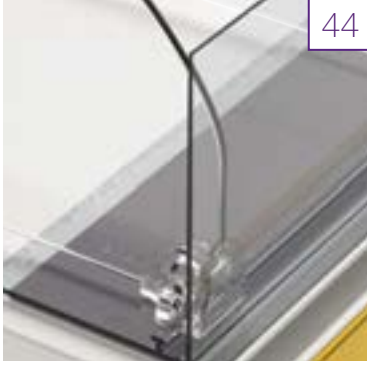

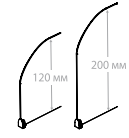

L-Front riser, with 80 mm high plastic front and integrated T-profile.

Length: 1000, 1250, 1330 mm
Height: 80 mm
2*12 mm foam (2*25 mm magnetic) tape strips

Color: 

Packaging: 10 pcs.

PRO30

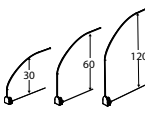

The rounded segmentation profile

Curved branding profile with integrated T-rail. Recommended to use with paper inserts 30 mm in height. Can be used in combination with dividers (DIV30, DIV60 or DIV120), branding clips and sign clips. Great tool for making product segmentation and glorifying a product on shelf.

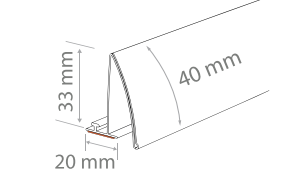

Standart lengths: 1000, 1250 mm

Color:  

PRO40

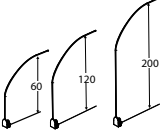

The rounded segmentation profile

Curved branding profile with integrated T-rail. Recommended to use with paper inserts 40 mm in height. Can be used in combination with dividers (DIV60, DIV120 or DIV200), pushers and BACK/BACKLINE support. Great tool for product segmentation and special offers communication.

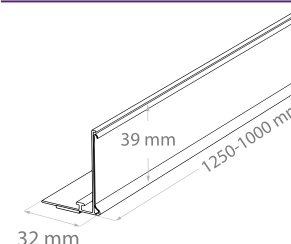

Standart lengths: 1000, 1250 mm

Color:  

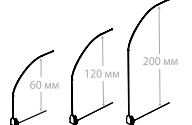

ME39

Datastrip with L-front riser

Perfect for use in cosmetics stores, pharmacies, and Drogerie outlets, this versatile solution acts as a front limiter to prevent sliding items on shelves while featuring a T-shaped profile for easy attachment of dividers and pushers. Installation is a breeze with double-sided tape, and its height is designed to accommodate 39 mm price tags.

Color: 

INTEGRA

Specifically designed for chocolate bars, the INTEGRA merchandising system excels at showcasing chocolate bars and packs effectively. Chocolate products are a vital category for stores, offering high profit margins and appealing to impulse buyers. This makes it essential to present them as attractively as possible.

The INTEGRA system not only boosts sales but also reduces store labor costs. Its integrated pushers ensure minimal staff involvement in maintaining an organized and appealing display.

HOW IT WORKS?

INTEGRA is a simple to mount system – just follow the steps below to install as many facing units per shelf as you need. You will need only the front fixing rail to install the system.

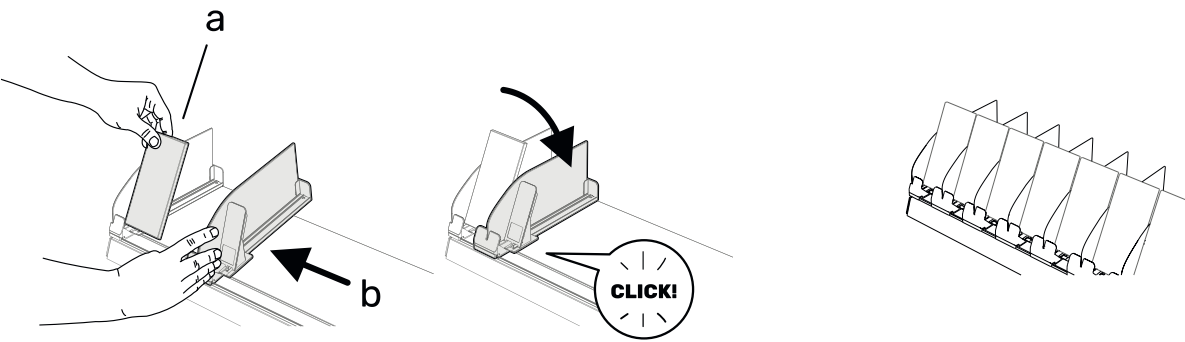

STEP 1

Fix the INTEGRAIL on shelf

STEP 2

Fix the divider/pusher units on the INTEGRAIL by putting their back part down

STEP 3

Check with the product the distance between the dividers and fix them one by one

STEP 4

The system is ready to use

INTEGRA Benefits

Simple installation and planogram adjustment

Attractive product presentation leading to higher sales

Merchandising automation = lower labor costs

Attractive price

VERTICAL BAR PLACEMENT

Vertical placement is the most common layout for chocolate bars, as it allows for a wider product range on the shelf. However, maintaining an organized display with this arrangement can be challenging. INTEGRA system effectively solves this problem! For vertical placement we recommend using 120mm-high dividers.

- Choose the divider/pusher length according to your shelf depth
- Put the left and right dividers/pushers on the shelf edges
- Put the middle dividers/pushers between them

The recommended INTEGRA components set for **1000 mm shelf ***

*depending on the chocolate bar width you can fit 10-11 facings per shelf

The recommended INTEGRA components set for **1250 mm shelf ***

*depending on the chocolate bar width you can fit 12-14 facings per shelf

The recommended INTEGRA components set for **1330 mm shelf ***

*depending on the chocolate bar width you can fit 13 facings per shelf

HORIZONTAL BAR PLACEMENT

Horizontal placement is commonly used for displaying larger chocolate bars. For this setup, we recommend using the INTEGRA system with 60mm-high dividers and two pushers per facing unit.

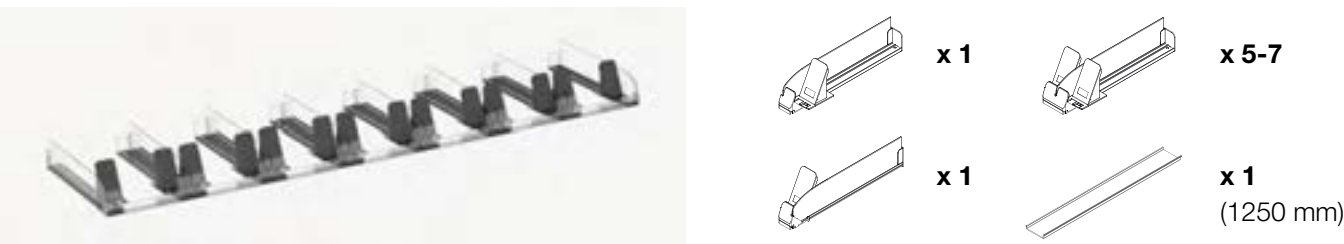

- There will be 2 pushers for each bar to ensure stable product front facing
- Install dividers/pushers one by one similar to the vertical placement set up

The recommended INTEGRA components set for **1000 mm shelf ***

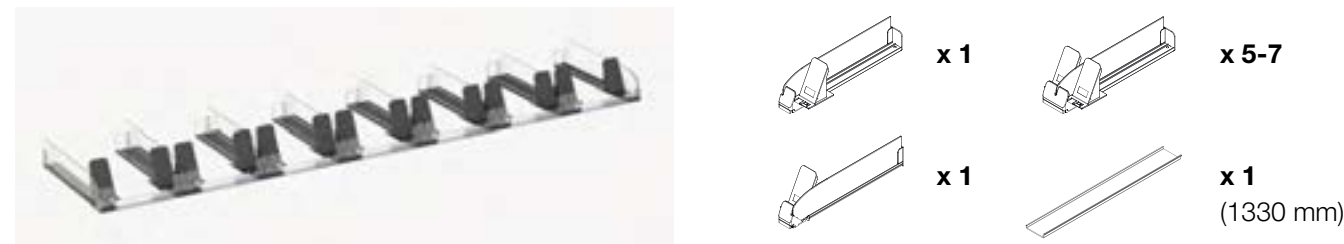

*the number of chocolate bars depends on the bar length

The recommended INTEGRA components set for **1250 mm shelf ***

*the number of chocolate bars depends on the bar length

The recommended INTEGRA components set for **1330 mm shelf ***

*the number of chocolate bars depends on the bar length

SMALLER SIZE CHOCOLATE BARS PLACEMENT

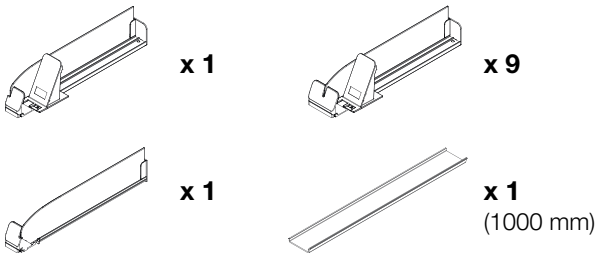

For smaller bars we recommend to use INTEGRA system with 60mm-high dividers and one pusher per facing unit.

The recommended INTEGRA components set for **1000 mm shelf ***

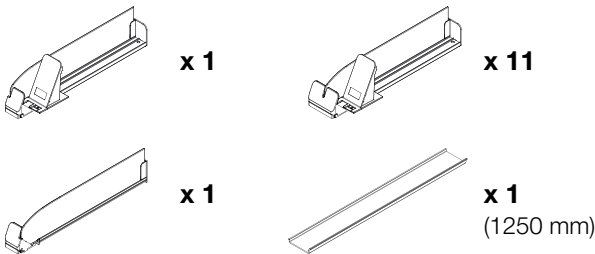

*depending on the chocolate bar width you can fit 10-11 facings per shelf

Enhance your chocolate display with the ALL BLACK INTEGRA system! Crafted from recycled plastic, this system combines stylish design with uncompromising functionality.

Works best on black shelves

48

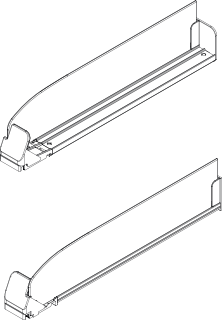

NTGR60-L / NTGR60-R

Integrated divider and gliding rail

This product is designed for INTEGRA solutions without spring pushers, featuring an integrated 60 mm-high divider with a gliding rail and front clips.

Available in both left and right configurations, recommended to use on the left and right edge of the shelf accordingly.

Divider height: 60 mm
Standart lengths: 285, 385, 485 mm.
Other lengths on request.

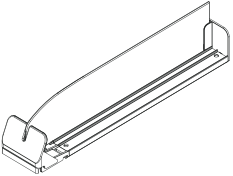

49

NTGR60-M

Integrated divider and gliding rail

This product is designed for INTEGRA solutions without spring pushers, featuring an integrated 60 mm-high divider with a gliding rail and front clips.

Divider height: 60 mm
Standart lengths: 285, 385, 485 mm.
Other lengths on request.

50

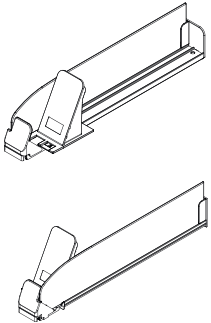

NTGR60-L-P / NTGR60-R-P

Integrated divider and pusher

This product is designed for INTEGRA solutions with spring pushers, featuring an integrated 60 mm-high divider with a gliding rail, 1 pusher and front clips.

Available in both left and right configurations, recommended to use on the left and right edge of the shelf accordingly.

Divider height: 60 mm
Standart lengths: 285, 385, 485 mm.
Other lengths on request.

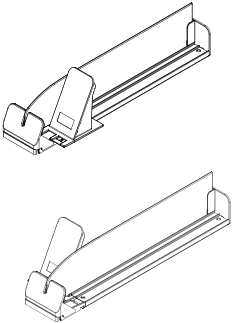

51

NTGR60-M-LP / NTGR60-M-RP

Integrated divider and pusher

This product is designed for INTEGRA solutions with spring pushers, featuring an integrated 60 mm-high divider with a gliding rail, 1 pusher and front clips.

Divider height: 60 mm
Standart lengths: 285, 385, 485 mm.
Other lengths on request.

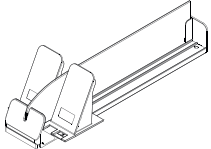

52

NTGR60-M-2P

Integrated divider and two pushers

This product is designed for INTEGRA solutions with spring pushers, featuring an integrated 60 mm-high divider with a gliding rail, 2 pushers and front clips.

Divider height: 60 mm
Standart lengths: 285, 385, 485 mm.
Other lengths on request.

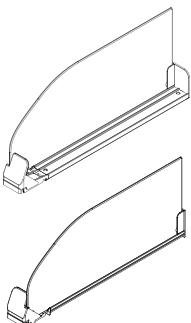

53

NTGR120-L / NTGR120-R

Integrated divider and gliding rail

This product is designed for INTEGRA solutions without spring pushers, featuring an integrated 120 mm-high divider with a gliding rail and front clips.

Divider height: 120 mm
Standart lengths: 285, 385, 485 mm.
Other lengths on request.

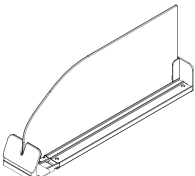

54

NTGR120-M

Integrated divider and gliding rail

This product is designed for INTEGRA solutions without spring pushers, featuring an integrated 120 mm-high divider with a gliding rail and front clips.

Divider height: 120 mm
Standart lengths: 285, 385, 485 mm.
Other lengths on request.

55

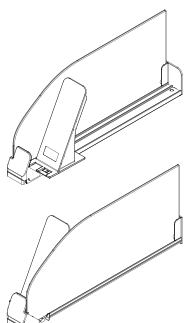

NTGR120-L-P / NTGR120-R-P

Integrated divider and pusher

This product is designed for INTEGRA solutions with spring pushers, featuring an integrated 120 mm-high divider with a gliding rail, 1 pusher and front clips.

Available in both left and right configurations, recommended to use on the left and right edge of the shelf accordingly.

Divider height: 120 mm
Standart lengths: 285, 385, 485 mm.
Other lengths on request.

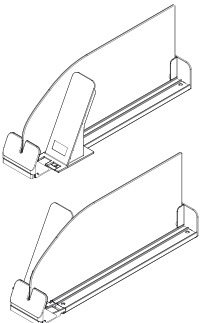

56

NTGR120-M-LP / NTGR120-M-RP

Integrated divider and pusher

This product is designed for INTEGRA solutions with spring pushers, featuring an integrated 120 mm-high divider with a gliding rail, 1 pusher and front clips.

Divider height: 120 mm
Standart lengths: 285, 385, 485 mm.
Other lengths on request.

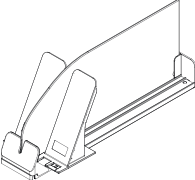

57

NTGR120-M-2P

Integrated divider and two pushers

This product is designed for INTEGRA solutions with spring pusher, featuring an integrated 120 mm-high divider with a gliding rail, 2 pushers and front clips.

Divider height: 120 mm
Standart lengths: 285, 385, 485 mm.
Other lengths on request.

2 PLASTIC FRAMES AND FIXING ACCESSORIES

- 39 Display sets with plastic frames
- 41 INFOSTANDS
- 43 Plastic frames and poster protection sleeves
- 45 Fixing accessories for plastic frames
- 52 Tubes and T-holders
- 55 Plastic, metal and magnetic stand bases

Plastic frames are commonly used in retail outlets to display important information. Made from durable plastic, these frames provide a convenient and stylish solution for showcasing printed materials such as promotional content, price tags, service lists, and company or product information.

SIMPLE TO USE AND EFFICIENT TOOLS TO COMMUNICATE YOUR SPECIAL OFFERS

PLASTIC FRAME WITH RATCHET CLIP

Simple pricing solution for Fruit & Vegetable section.

PLASTIC FRAMES WITH METAL CLAMP HOLDER

Impactful product segmentation and eye-stopping signage for your store.

INFOSTAND XL DUO

Promotional pallets sales support.

SUSPENSION SYSTEMS

Maximize your store space with this highly effective communication tool, perfect for promotional areas and the Fruit and Vegetable department.

PLASTIC FRAME FOR SHOPPING TROLLEYS

Place your promotional message directly in front of your shoppers' eyes.

INFOSTAND FIX DUO

A simple-to-use and robust 360 view tool for price communication.

INFOSTANDS

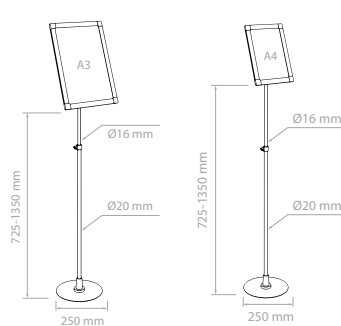

Advertising stands are highly favored in retail environments for their ease of updating posters, attractive design, and ability to enhance any interior. Widely used in supermarkets and hypermarkets, they are ideal for promoting products, special offers, and sales events.

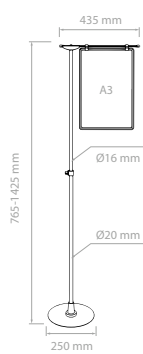

PCF-STAND Advertising stand with plastic or aluminum frame

This stand is designed with a sturdy round metal base and a height-adjustable aluminum tube. It is available in several variations, including options with A4 or A3 plastic frames with a metal backsheet or A4/A3 plastic or aluminum click frames. There is a frame tilt adjustment option to make the information better visible for your customers.

INFOSTAND-XL L-Shaped Telescopic Advertising Stand

This versatile L-shaped telescopic advertising stand is perfect for enhancing visibility in sales areas, on island displays, and around pallet setups. It effectively draws attention to promotional content, advertisements, and other key information. Typically featuring on A4 or A3 frame (optional), the stand allows for quick and easy changes of printed materials and supports double-sided inserts for maximum exposure. The stand boasts a stable base and offers adjustable height settings ranging from 725 to 1350 mm, thanks to its telescopic tube design.

FORMAT	CODE
A3	37370020

2

INFOSTAND-XL-T

Advertising Stand with Plastic Click-Frame

This stand features a durable round metal base, an adjustable aluminum tube for height, and a T-holder at the top for the frame. You can customize the setup by selecting an A4 or A3 plastic frame in the color of your choice.

FORMAT	CODE
A3	37370021

2

INFOSTAND-XL Duo

Telescopic Advertising Stand with Double Holder

Designed for sales areas, island displays, and pallet setups, this telescopic advertising stand with a double holder effectively highlights promotional and advertising content. Simply select A4 or A3 plastic frames or poster sleeves (purchased separately) to complete the stand setup.

The stand facilitates effortless media changes and supports double-sided inserts for maximum visibility. Featuring a stable base and adjustable height from 725 to 1350 mm via a telescopic tube, it offers both stability and flexibility.

FORMAT	CODE
A3	37370019

1

INFOSTAND-FIX

The fixed-height advertising stand is ideal for sales areas, “island” displays, and pallet product promotions, designed to capture attention for various types of information.

It features optional A4 frames for easy media replacement and supports double-sided printed inserts. The stand is stable and stands at a height of 1500 mm.

FORMAT	CODE
A3	37370018

2

INFOSTAND-FIX

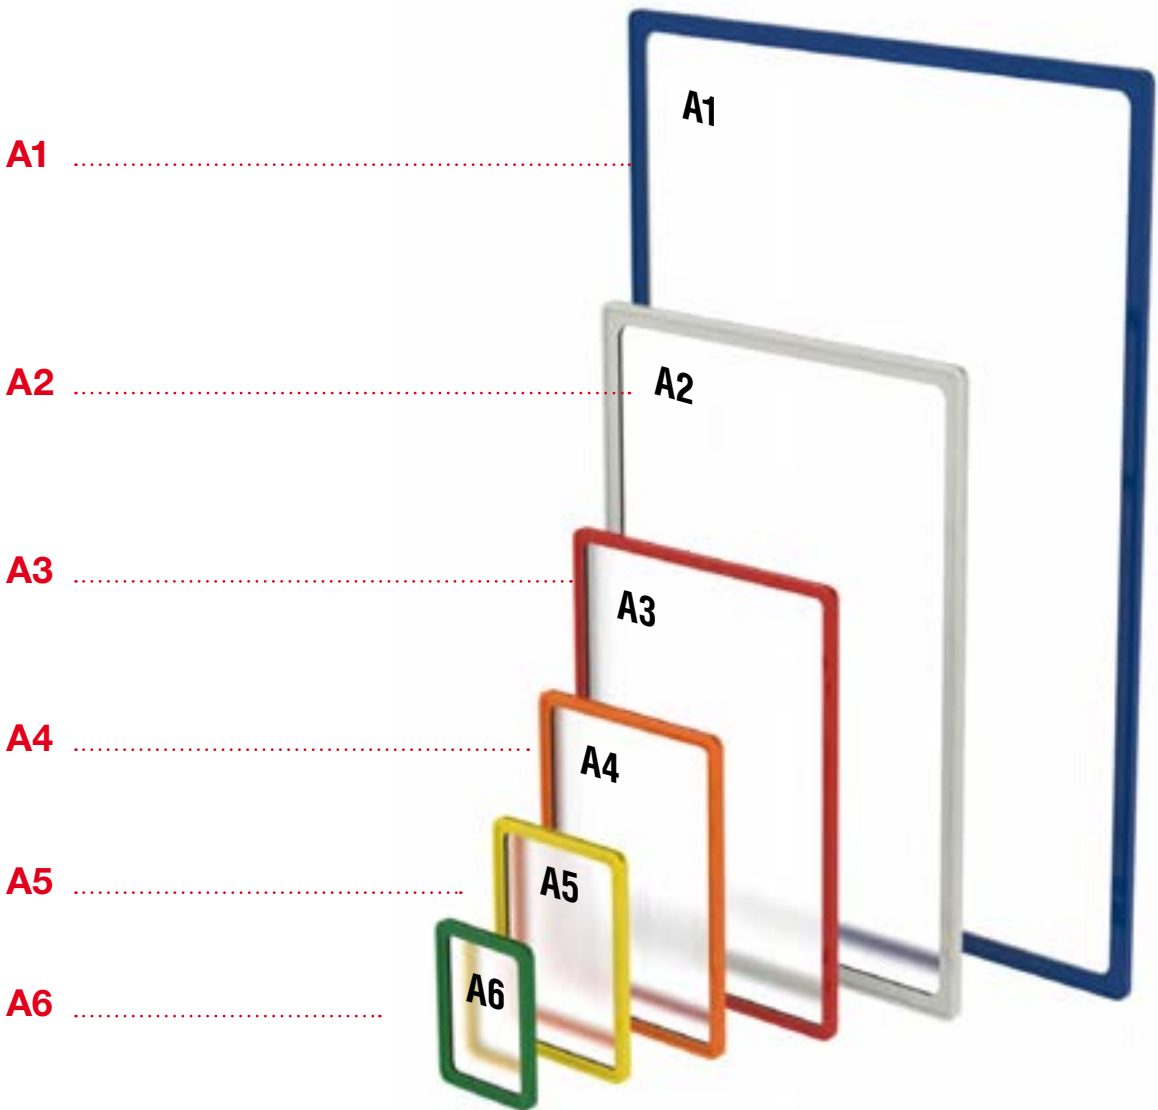

The fixed-height advertising stand is ideal for sales areas, “island” displays, and pallet product setups, designed to draw attention to promotional and advertising content.

It features optional A3 frames for easy media updates and supports double-sided printed inserts. With a stable base and a height of 1500 mm, this stand combines practicality with effective visibility.

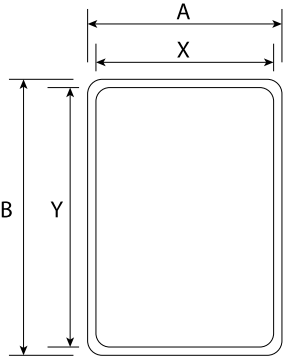

FORMAT	CODE
A3	37370018

PLASTIC FRAME PF

Plastic frames are highly popular in modern retail due to their versatility. Stores can use the same frames in various settings by simply swapping out the fixing clips and stand components. This flexibility simplifies the store decoration process, making it both easy and cost-effective.

3 DATASTRIPS AND ESL HOLDERS

- 59 Datastrips with adhesive tape
- 61 Datastrips for metal shelves and refrigeration equipment
- 66 Datastrips for wire, glass and wooden shelves and baskets
- 69 Price labels for hooks
- 70 Color inserts
- 71 Electronic shelf label holders

DATASTRIPS WITH ADHESIVE TAPE

Universal datastrips to be fixed on any even surface (metal, wood, glass, plastic). Widely used as an additional component (price holder) of product displays. Can be cut into shorter pieces to be used as separate priceholders.

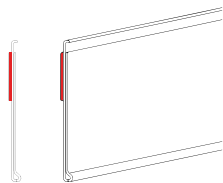

DBR Universal datastrip with adhesive tape

The most universal datastrip with flat back surface and adhesive tape (standard of foam).

Label heights: 26, 30, 39, 52, 60, 73, 105 mm
Standard lengths: 1000, 1250 mm

Color: Tr

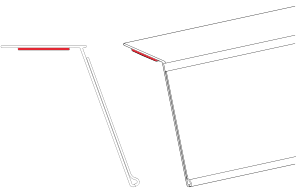

HEL Universal datastrip with adhesive tape

Mounted on top of the shelf, fixed with adhesive tape. Front part inclined at 20 degree angle.

Label height: 39 mm (other on request)
Standard lengths: 1000, 1250 mm

Color: Tr

LENGTH, MM	CODE
1000	34340056
1250	34340057

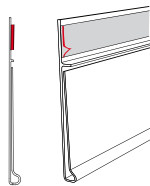

DBHT Universal datastrip with adhesive tape

This datastrip can have very different applications – it can be fixed on the shelf edge from inside or can be attached to other datastrip as a segmentation strip.

Label height: 39 mm (other on request)
Standard lengths: 1000, 1250 mm

Color: Tr

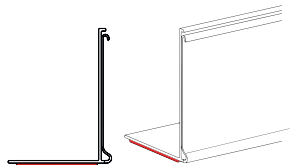

ME Intergrated datastrip front riser

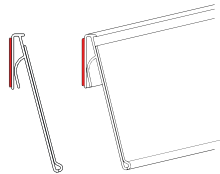

Serves as both a front riser and a datastrip, securing items on the shelf while displaying pricing information. Ideal for stores displaying lightweight items prone to tipping.

An optional version with an integrated T-rail allows for easy attachment of dividers, pushers, and back supports.
Label height: 39 mm (32 mm available upon request)
Standard lengths: 1000, 1250 mm

CONSIDER ELECTRONIC SHELF LABELS?

Electronic Shelf Labels (ESLs) play a pivotal role in transforming modern retail. By automating price updates, you can get a lot of benefits for your business:

- **Efficiency:** Automate price updates, reduce labor costs, and eliminate pricing errors.
- **Dynamic Pricing:** Adapt quickly to market trends, promotions, and competitor pricing.
- **Sustainability:** Minimize paper usage and reduce waste.
- **Enhanced Shopping Experience:** Provide QR codes and instant access to product details, offers, and reviews.
- **Smart Retail Solution:** Drive operational excellence and customer satisfaction.

Why should you consider ESL?

- to improve your operations efficiency
- to minimise pricing errors and avoid fines for it
- to reduce labor costs
- to improve customer perception of your store

Why do you need a reliable supplier of ESL holders?

- to minimise ESL theft
- to minimise ESL damage
- to maximise efficiency of your investment into ESL

WE PROVIDE FIXTURES FOR ESL DESIGNED TO SUIT A VARIETY OF APPLICATIONS

We specialize in manufacturing high-quality fixing profiles for Electronic Shelf Labels (ESLs). Designed to ensure secure attachment and compatibility with various shelving systems, our profiles offer durability and ease of installation.

We offer:

- **Profiles Compatible with Leading ESL Brands:** Designed to fit the most popular electronic shelf label systems on the market.
- **Versatile Shelf Compatibility:** Our profiles are tailored to fit a wide range of shelves and refrigeration units.
- **Customizable Solutions:** Flexible profile lengths and additional features to meet your specific needs.

We produce and sell a wide range of ESL holders specifically designed for hooks. Our holders ensure secure and efficient attachment, making them ideal for optimizing ESL placement in retail displays.

We specialize in producing ESL holders for non-shelf applications, including Deli counters, and fruit and vegetable departments, among others. Our solutions are designed to securely and efficiently display electronic shelf labels across various retail environments.

Ready to enhance your retail experience with ESL?

Our team is here to help you find the perfect fixtures for your ESL setup.

THE PRICERS THAT SELL

DELI SERIES

Price holders with Pick&Mix concept – many parts in several colors that you can combine for multiple applications.

RATCHET SERIES

Price holders in this category are designed for demanding environments and can support heavier price labels and cassettes. Their durability ensures a longer lifespan, making them a favorite among our customers!

SWIVEL SERIES

Best selling series that is widely used around the world. Multiple combinations in 2 standard colors, ready to use sets and an opportunity to create a price holder right according to you need!

BIG CLAMP PRICE HOLDERS

The price holders of this type are widely used to communicate product information and special offer messages. They can hold signs as big as A5 and A4.

UNIVERSAL PRICE HOLDERS

This group unites different price holders made from metal and plastic. You can see these holders not only in the supermarkets, but in bakeries, cafes, coffee shops.

DELI PRICE HOLDERS —
MOST COMMON COMBINATIONS

Below you can find the most common combinations of DELI price system components. Any combination can be bought in one of the 2 standard colors — transparent or black, other colors available on request.

1

DELI-STICK-SET **DELI small stick with price holder**

This straightforward set includes the DELI short stick and the DELI-SH price label holder. The price holder features a ratchet mechanism, allowing you to adjust its tilt with ease.

8 SUSPENSION SYSTEMS

- 137** SKYTRACK suspension system
- 141** EZTRACK suspension system
- 147** PRICEBOARD suspension system
- 151** PANELS and CASSETTES
- 153** Wires, connectors, suspension accessories

SUSPENSION SYSTEM IS A POWERFUL COMMUNICATION TOOL

COMMUNICATE EFFICIENTLY IN FRUIT & VEGETABLE ZONE

- Use the space above the product layout

PROMOTE SPECIAL OFFERS

- It's not enough to cut the price, you need to communicate it well

SUSPENSION SYSTEMS AND PANELS

SKYTRACK NEW

A strong aluminum profile capable of carrying extra weight, along with a wide variety of connectors and accessories, allows for versatile suspension configurations. Used in combination with price cassettes, plastic frames, transparent plastic pockets.

ECOTRACK

A simple, easy-to-use classic profile, primarily designed for straight-line configurations. It is compatible with all types of suspension information holders.

EZTRACK NEW

A new way to make suspension systems really EZ to use!

- EZ to mount
- EZ to change the messages
- EZ to cut costs

PRICEBOARD NEW

A bestseller for convenience and discount stores, PRICEBOARD transforms the shopping experience by creating eye-catching price communication and assisting shoppers with color-coded navigation.

SKYTRACK

Thanks to its modern design and extensive functionality, the SKYTRACK system can be used for **displaying prices**, product information on pallet displays, refrigerated showcases, as well as for **navigation in the retail space**, providing convenient and **quick information for consumers**.

The SKYTRACK suspension system is easy to install and operate, featuring a **reinforced aluminum profile** that prevents bending under the weight of frames.

A wide range of components for connecting and suspending the profile allows for the creation of **various geometric configurations** and the most efficient use of retail space.

SKYTRACK / COMPONENTS

The components of the SKYTRACK system enable the creation of various suspended structures, including straight, rectangular, square, or figure-eight designs.

1

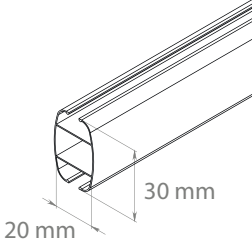

SKYTRACK

SKYTRACK Aluminum profile

Lightweight but sturdy aluminum profile. Used in combination with the perforated plastic insert and plastic frames or price cassettes.

Easy to fix, no tools needed.

Color: Gr

MM	CODE
1000	41410047
2000	42420007

2

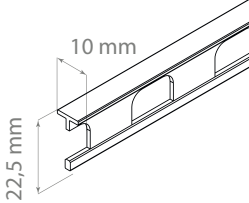

UNILINE

Perforated insert 1000 mm

This T-shaped profile is inserted inside the SKYTRACK profile and makes it easy to hang up signs and posters along the aluminum rail.

Standard length – 1000 mm.

Color: Tr

CODE
39390071

3

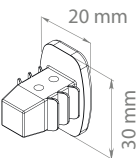

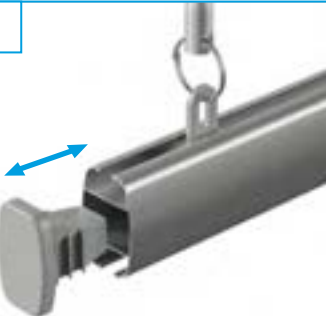

SKYTRACK

SKYTRACK Profile cap

A plastic cap for the SKYTRACK profile used to prevent the UNILINE profile and suspension hook from sliding off.

Easy to fix, no tools needed.

Color: Gr

CODE
42420011

4

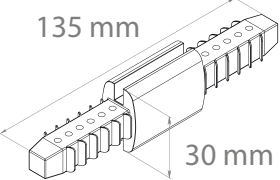

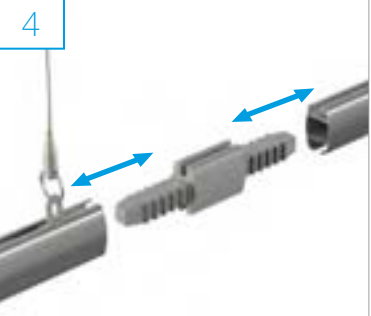

SKYTRACK

SKYTRACK Straight connector

A plastic connector used to fix several SKYTRACK profiles into a single straight line.

Easy to fix, no tools needed.

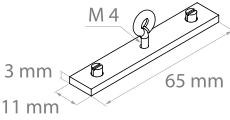

Color: Gr

CODE
42420008

UNI-JOIN

UNI-JOIN Metal connector with loop

A metal connector used to fix several SKYTRACK profiles into a single straight line. Has 2 small screws and a suspension loop with a screw that provides additional connection strength.

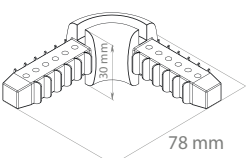

Color: Gr

CODE
39390074

SKYTRACK

SKYTRACK L connector

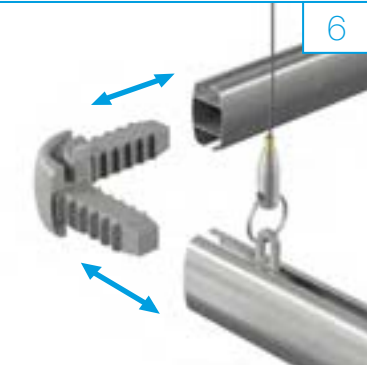

A plastic connector used to fix several SKYTRACK profiles into a rectangular or square fixture.

Easy to fix, no tools needed.

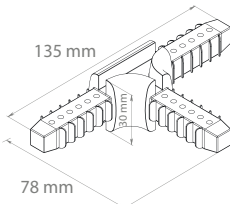

Color: Gr

CODE
42420009

SKYTRACK

SKYTRACK T connector

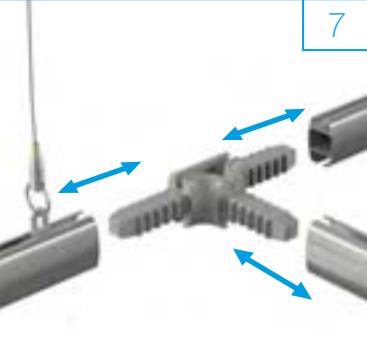

A plastic connector used to fix several SKYTRACK profiles into a rectangular or square fixture with a bar in the middle.

Easy to fix, no tools needed.

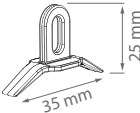

Color: Gr

CODE
42420010

UNI-LOOP-P

Plastic suspension loop

This plastic loop is fixed into the upper channel of the SKYTRACK or ECOTRACK profile and can be slid along the profile with a little tension, thus making it easy to change its position.

At least 2 hooks recommended to use per 1 SKYTRACK or ECOTRACK profile.

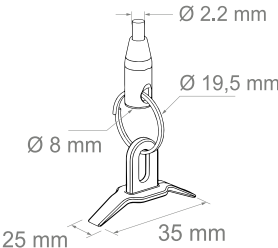

Color: Gr

CODE
39390072

WIREGRIPPER

Adjustable wire holder with plastic loop

Suspension set with adjustable wire length. Has a loop from one side and plastic hook that easily fixes into SKYTRACK, ECOTRACK, PRICEBOARD profiles.

Easy to fix, no tools needed.

Color: Gr

CODE
39390140

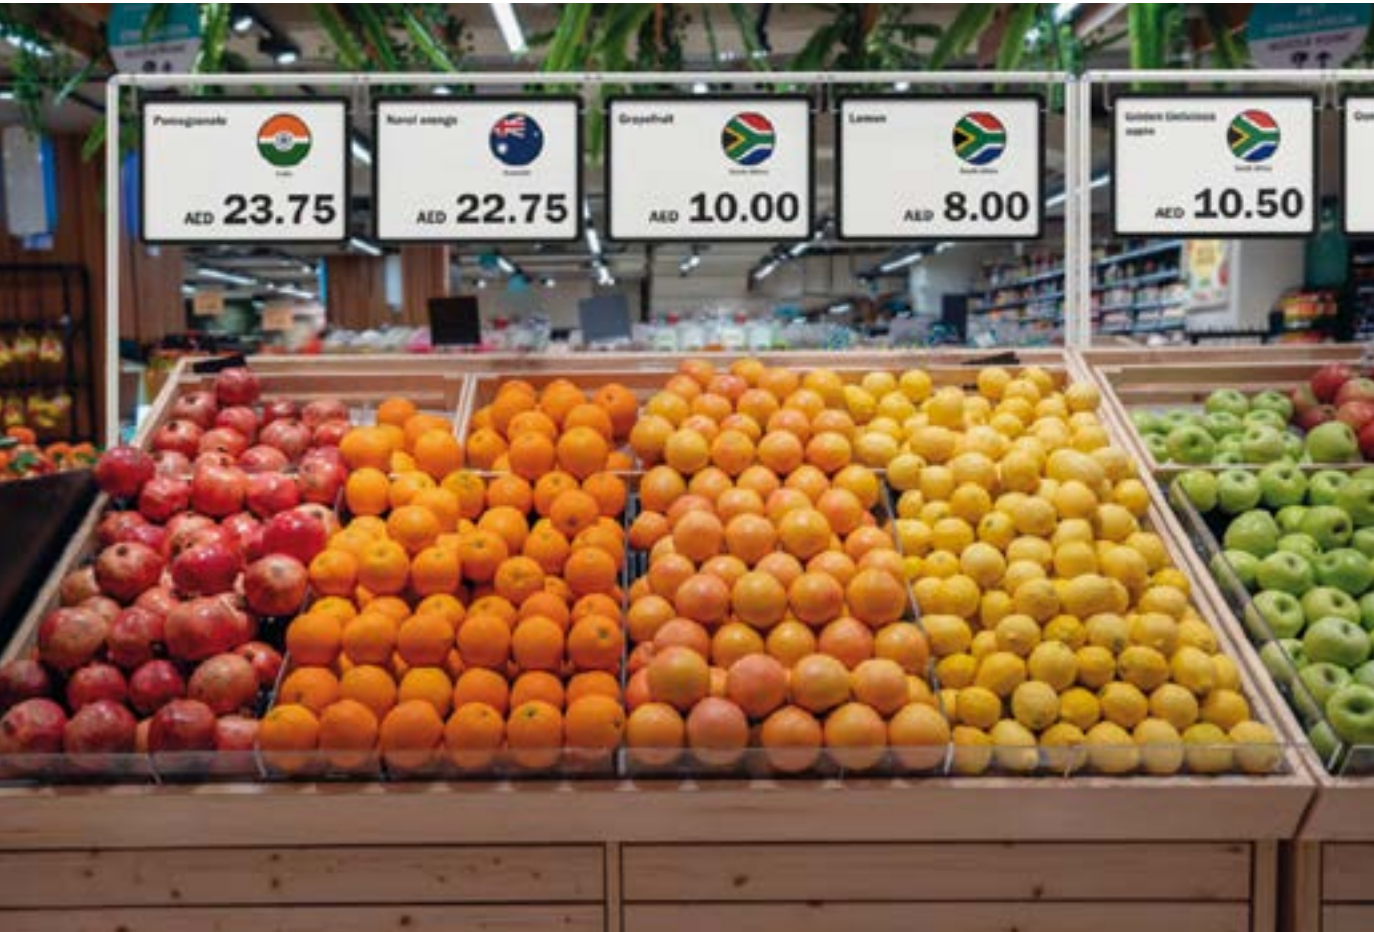

EZTRACK

The EZTRACK Suspension system enhances space utilization in stores while enabling effective customer communication by positioning advertising posters and price tags above pallet displays, refrigerated showcases, and low shelving units.

EZTRACK

EZTRACK components can also be configured to create a floor-based suspension system. This versatile and mobile solution is particularly effective in the Fruit & Vegetable department.

EZ ROD	Telescopic T-rod
<p>765 - 2000 mm</p> <p>Color: Gr</p> <p>CODE 41410054</p>	<p>10</p>

The EZTRACK system can be enhanced with EZ LIFT hooks, allowing for easy placement and removal from the rail using the EZ ROD. The telescopic aluminum tube of the EZ ROD is adjustable, enabling you to reach the desired height effortlessly.

EZTRACK / COMPONENTS

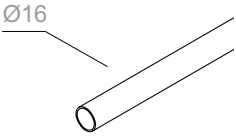

The EZTRACK system features a minimal number of components, yet it offers the flexibility to create various types of suspension rails. It is compatible with a wide range of posters, frames, ESLs and price cassettes.

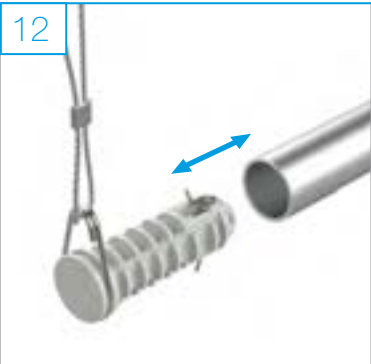

EZTRACK Aluminum suspension profile

This profile is a straightforward 16 mm aluminum tube—light yet strong. When used with EZTRACK system connectors and accessories, it transforms into a versatile and easy-to-use suspension system.

Color: Gr

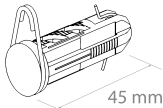

MM	CODE
1000	41410055

This hook is specifically designed to support a GRIPPER profile, making it ideal for hanging thin paper or vinyl posters from the EZTRACK rail.

It comes in two versions: with or without the EZ LIFT feature.

Color: Tr

Packaging: 10 pcs

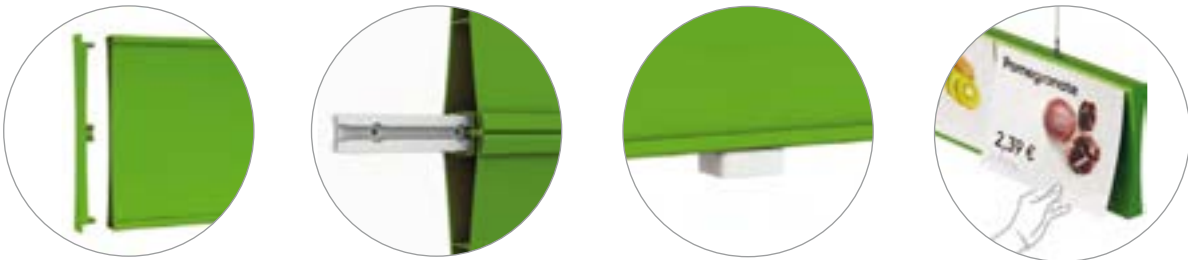

NAME	CODE
Standart	41410062
EZ LIFT	41410063

PRICEBOARD

Suspension systems based on a priceboard are economical holders of large price tags. The priceboard provides double-sided placement of price tags and advertising posters, as well as the possibility of producing multi-tiered and extended-length single structures. Due to this, it is ideal for use above “island” displays with a large number of goods in one room (vegetables and fruits slides, pallet displays, refrigerated chests).

Due to the ease and speed of changing storage media, ease of maintenance and durability, they are in demand primarily in grocery stores.

PRICEBOARD / COMPONENTS

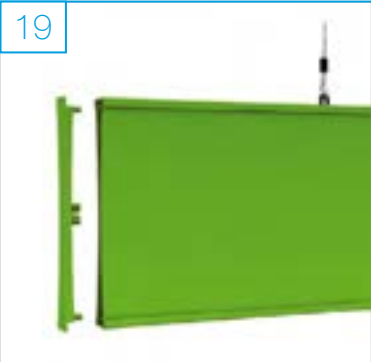

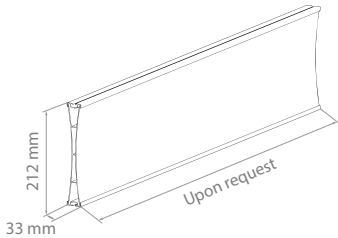

The PRICEBOARD system features a streamlined range of components, valued by our clients for its simplicity. Its ease of assembly and maintenance makes it an excellent solution for modern retail stores.

PRICEBOARD A5 Plastic price board

Allows you to place large price tags in A4 (horizontal), A5 (vertical) format on several products at once. Made from durable plastic. Use with PB-CAP plug, PB-CONNECTOR connector, plastic loop for hanging or magnets for desktop placement.

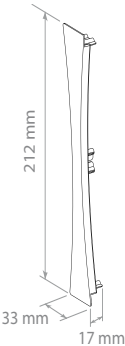

Color: Sc Gr Re Gn Ye Wh Or Bl

PB-CAP Plug for price board

The plastic cap PB-CAP covers the end of the PRICEBOARD A5 price board, giving it an attractive appearance.

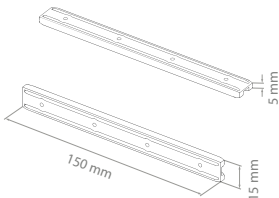

Color: Sc Gr Re Gn Ye Wh Or Bl

PB-CONNECTOR Connector for price board

The PB-CONNECTOR connector allows you to expand the price board vertically to several tiers, as well as increase it horizontally in length, maintaining the unity of the design. To connect two price boards vertically, 4 PB-CONNECTOR connectors are required. To connect two profiles into a single structure horizontally, 2 connectors are required.

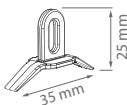

Color: Wh

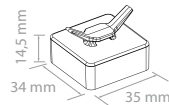

UNI-LOOP-P Plastic loop for hanging

The UNI-LOOP-P plastic loop is attached to the upper groove of the price board. The UNI-LOOP loop moves along the entire length of the price board. It is recommended to use 2 loops per 1.2 m long price board.

Color: Gr

CODE
39390072

MAGNET-PB Magnetic holder for PRICEBOARD profile

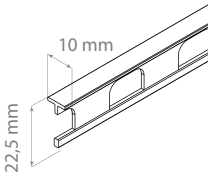

Magnetic price board holder positioned at a 90° angle to the surface. It enables secure attachment of price boards to metal retail fixtures or iron tracks in suspended ceilings. For a 1.2 m long PRICEBOARD, it is recommended to use at least two magnetic holders.

Size: 35x34x14.5 mm

Color: Wh

CODE

42420021

UNILINE PERFORATED INSERT 1000 mm

The classic UNILINE perforated profile can be used with PRICEBOARD profiles, adding another level of suspended messages – in plastic frames or transparent sleeves.

Standart length – 1000 mm.

Color: Gr

CODE

39390071

PANELS AND CASSETTES

Price cassettes are a modern price presentation tool that complements the display of goods with attractive price tags. The uniformity of presentation of information in price cassettes and their neat and stylish format help to enhance the favorable impression of the store.

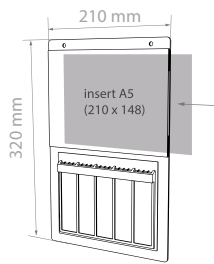

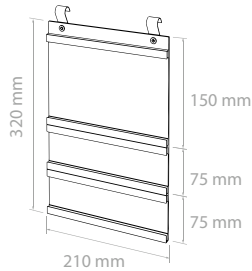

24

QUICK MOUNT Price cassettes with integrated hooks

A simple yet highly functional A4 price cassette (one or double-sided) designed for the Fruit and Vegetable department. It allows for easy insertion of price digit books and custom-made product descriptions. Recommended to use with SKYTRACK+UNILINE profile. Different designs of digits and printed inserts available. Integrated metal hooks ensure easy suspension.

Color: **Sc**

BOOKLET STANDS

Display and distribute your promotional booklets and leaflets in a clear and professional way with our range of booklet and catalogue holders. Our stands are both functional and versatile, offering efficient storage and delivery, while being easy to assemble.

MULTI-LEVEL BOOKLET STANDS

Organize your promotional materials with a freestanding booklet stand, perfect for waiting areas, receptions, or entrance halls. Our range includes stands designed to hold A4, A5, and A6 portrait brochures, catalogues, and leaflets.

FREESTANDING SNAP FRAME STANDS

Showcase menus, directional signs, product details, and more with this standalone poster holder. Featuring a convenient click-open frame and a sturdy weighted base, it offers a functional and stylish solution for displaying information.

FOLDABLE BROCHURE STAND

Provide customers with easy access to your literature at conferences, events, and pop-ups with our Foldable Brochure Holder. Designed with a convenient concertina mechanism, it's a practical display solution. At the end of the day, simply collapse the stand and store it in the included carry case for hassle-free transportation and compact storage.

CATALOGUE HOLDER

This holder is ideal for displaying a single type of catalogue or brochure. Its tilted design presents your promotional material effectively, ensuring it captures the attention of customers. Our range includes stands designed to hold A4, A5, and A6 brochures or catalogues.

MULTI-LEVEL BOOKLET STANDS WITH SNAP FRAME

This stand not only keeps your displays neat and organized but also enhances the visibility of your company materials, encouraging visitors to pick up a brochure, magazine, or newspaper. Equipped with a snap frame on top, it grabs customer attention. We offer a variety of stands for A4, A5, and A6 portrait brochures and catalogues.

FLIP DISPLAY SYSTEMS

Showcase information for customers to engage with using a flip book display. In addition to retail environments, they are also perfect for various settings, including showrooms, cafes, educational institutions and museum exhibits.

WALL FLIP DISPLAY INFOLINE-W

The wall-mounted design is perfect for saving valuable space while allowing you to display information such as shop or company rules and policies, instructions, and other internal communications.
